How to open kiosk mode on android tablet

In the top-left corner, press the key icon (it may be in a different corner and may not be visible on the screen) four times.

Sometimes the window with the key appears several times.

Enter the administrator password (12345678, 12345678a, or ask ImpressBox).

Then configure what you need on the tablet (Wi-Fi or other settings).
